- ICESI University - 2023
- Interactive Media Design

Profile

Hi 🌟! I am a creative FrontEnd Developer with **3+ years** of experience with React and Typescript, with a strong interest in building web applications, closing the gap between artistry and engineering.

In an era increasingly driven by technology, I am passionate about merging design and code to create impactful and interactive user experiences. Proficient in modern frontend frameworks and libraries, including **Next.js, Tailwind CSS, Material UI (MUI), and state management with Redux**. Experienced in agile environments and committed to writing clean, reusable code.

I am committed to crafting a future where design and technology work seamlessly together, driving innovation and success 🚀.

Work Experience

Makata Studio (January 2025 - Present)

Interactive Frontend Developer / UI/UX Research

- Developed interactive user interfaces using **React.js, Next.js, Tailwind CSS, and Three.js**, enhancing user engagement through 3D animations and seamless transitions.
- Collaborated on the creation of the agency's official website, showcasing services in an interactive and visually appealing manner.
- Utilized **GSAP** and **Framer Motion** for advanced animations, ensuring a smooth and engaging user experience.

FesamedCare (August 2023 - October 2024)

Frontend Developer / UI/UX Research

I bridge backend infrastructure and frontend development by:

- **Frontend Integration:** Seamlessly connecting responsive UIs (Next.js) with backend systems (FastAPI).
- **Server & Cloud Management:** Optimizing cloud servers (AWS) for performance, security (SSL via CloudFlare), and regular maintenance.
- **Database & Service Management:** Ensuring efficient database handling, backups, and managing services like email (SendGrid) and cloud storage (AWS S3)
- **Monitoring & Scalability:** Monitoring app performance, implementing auto-scaling, and troubleshooting issues to ensure smooth operation.
- **UI Design:** Designed responsive interfaces using **React.js** and Tailwind CSS.

I maintain documentation and ensure compliance, with a focus on frontend-related aspects.

Assistant Professor of Designing with algorithms (September 2024)

ICESI University

Guiding students in designing user interfaces and user experience using Javascript and Typescript, helping to improve client-side interactivity.
